PROJECTS

- Smart Healthcare Platform** | *ASP.NET Core MVC, SQL Server, LLM* 🐙 GitHub
- Graduation project — built a platform connecting patients, doctors, hospitals, and medical services in one system.
 - Implemented appointment booking, digital health insurance requests, and location-based hospital discovery.
 - Developed a blood bank module and integrated AI-powered medical assistance using LLM.
- Expense Tracker Web Application** | *Angular, ASP.NET Core Web API, C#, EF Core, SQL Server* 🐙 GitHub
- Built a full-stack expense tracking app with income, categories, transactions, dashboard reports, and profile management.
 - Implemented secure authentication using ASP.NET Core Identity and JWT.
 - Applied Onion Architecture (API, Application, Domain, Infrastructure) for a clean and scalable codebase.
 - Built responsive frontend using Angular, TypeScript, and Bootstrap.
- Hotel Booking System** | *ASP.NET Core MVC, C#, Entity Framework, SQL Server* 🐙 GitHub
- Developed a full-stack hotel booking app with hotel listing, room management, and reservation tracking.

- Implemented authentication using ASP.NET Identity and applied Repository & Service patterns.
- Designed the relational database schema using EF Core Code First.

E-Commerce Web Application (DEPI Project) | *ASP.NET MVC, C#, SQL Server, EF*

 GitHub

- Built a full-stack e-commerce platform with product management, shopping cart, and order processing.
- Designed relational database schema and handled data access using Entity Framework and SQL Server.
- Built responsive UI using HTML, CSS, Bootstrap, and JavaScript.

Online Examination System | *ASP.NET Core MVC, C#, SQL Server*

 GitHub

- Designed a relational database schema covering students, instructors, courses, exams, and questions.
- Implemented stored procedures, triggers, and constraints to handle exam generation and student answers.
- Developed queries to automatically calculate student scores and generate exam results.

Library Management System | *C#, Entity Framework, SQL Server*

 GitHub

- Built a library management system to manage books, authors, and categories using Entity Framework Code First.
- Implemented CRUD operations with relational database design and advanced LINQ queries.
